**EXPERIENTIAL LEARNING BY ATTENDEES:**

DELL enhanced our knowledge at a higher level in the field of hardware. We encountered many magnanimous technologies for our forthcoming generations.

The most important need for the technology is storage. The systems designed by dell plays such a role. They spend nearly 25 days on an inventory.

They include the number of days to build the equipments. They spend 8 hours for the components to be fixed (inventory), 16 hours are spent by those who fix the components at a storage place like supermarket. They spend 32 hours for diagnosis of a server. Finally they are bought out of the factory and placed at the delivery disposal area. The fixing up of the components is done manually.

INDUSTRIAL VISIT – 2016-2017

ABOUT SOFTWARE TECHNOLOGY PARK IN INDIA

Software Technology Park (STP) is a 100% export oriented scheme for the development and export of computer software using communication links or physical media and including export of professional services. The scheme integrates the concept of 100% Export Oriented Units (EOUs) and Export Processing Zones (EPZs) of the Government of India and the concept of Science Parks / Technology Parks as operating elsewhere in the World.

A seminar was held there by the directors of STPI. STPI is a government based company. So they explained how the company worked and the benefits of it. Their main objective is to promote entrepreneurship through incubation programmes and IP development. They even explained how they promote quality and security to I.T industries. The seminar was concluded with a session of Feedback on frequently asked questions. Students who attended the seminar were greatly motivated and were on a head start to prepare and become successful.

OUTCOMES

Industrial visit is considered as one of the tactical methods of teaching. The main reason behind this, it lets student to know things practically through interaction, working methods and employment practices. Moreover, it gives exposure from academic point of view. Main aim Industrial visit is to provide an exposure to students about practical working environment. They also provide students a good opportunity to gain full awareness about industrial practices.”
